

Submitter: Ellen Saunders

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB80

I support for SB 80- to stop new or expanding large CAFOs in GWMA's. Small local farms that care for the land with regenerative practices are our best hope to reclaim our damaged lands. Large factory farms that cause water and air pollution are a detriment to our state because they not only poison the ground water but they contain the animals in crowded pens that causes sickness in the animals that then spread to the meat and milk. I buy my milk and meat from local small farmers who's land practices regenerate the land and care for their water resources.
