

Submitter: Robert Brogoitti

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

Why can't you put this much effort into real problems that plague our state. Homeless drugs, mental health, and many more. I keep hearing about all the deaths, but watch the news, more people die on a daily basis from car wrecks than "Gun violence". Enough is enough, stop going after law abiding gun owners and tax paying business owners and do something truly beneficial to the state. Try fixing the mental health system instead of forcing the small county jails from being the frontline of the mental health battle.

Enough is enough!
