Dear Representative Helfrich,

I am writing to express my strong support for the City of Mosier's Capital Construction request of \$2.5 million for the Mosier Center, a critical public safety facility and economic hub for our community.

I love being in Mosier but the fire last summer was very concerning and scary. We can expect fires near Mosier will be more common which means we need to support our local fire department. We do not have the room we need for the Fire Department or other community needs.

The new Mosier Center will be a great addition to the town and will provide room for people to gather, get supplies if needed and allow the fire department to safely and efficiently respond to emergencies. The space for the fire department is not adequate now. And there is not any place for the community at large during emergencies. We need a Mosier Center.

Please help us make this happen for the City of Mosier.
