

Submitter: Carole Miles

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3932

It's shameful that thousands of miles of Oregon's waterways are in poor health. Thankfully, there's a low-cost solution involving a willing partner to help clean up our waterways — the state animal of Oregon, the American beaver. Beaver are a keystone species that can quickly re-engineer an unhealthy waterway and transform the habitat to support many other critical species. HB 3932 is not about limiting beaver hunting, but simply allows them to access the habitats where they want to thrive. I strongly urge you to support this bill.
