Measure, Appointment or Topic: SB5516

Hello,

I'm a parent of a PPS middle school student. I'm writing to you today to urge that you provide adequate funding to our public schools.

All students need and deserve an education that meets their academic, physical and social needs.

Oregon's economy depends on having a skilled workforce that is academically and socially prepared to keep our economy strong, now and in future generations.

Education is shown to reduce crime, good schools are shown to increase property values, and education is one of the best investments legislators can make in the future of their state.

Due to the disarray of our federal government during this new administration it is incumbent on our state legislature to ensure that our public schools are funded to meet the needs of all Oregon students.

Thank you for your time,

Windsor Meyer
