Everything about this proposed legislation is wrong, from the premise of public safety to the constitutional legality of it. That will not stop the democratic supermajority from passing it anyway. Regardless of how many Oregonians do not want more firearm legislation, it will pass and ultimately be signed into law. All these over-reaching bills do is punish law abiding citizens. This year is my first year I have genuinely paid as much attention as I have to Oregon's Legislative process. Perhaps I can persuade others into realizing that the current legislative process is skewed against most of Oregon. In the meantime, bills like this will continue to rack up and punish the law-abiding citizens of Oregon.
