On Behalf Of: Stop taking away the human right to defend life
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB243

I strongly oppose the underlying bill and the -1 amendments because it infringes on a woman's (or male's) human right to defend herself and her children from the predatory illegal aliens criminals that are preying on innocent Oregonians nearly every day all over the state. Many of these criminals are armed with guns illegally and use them against law abiding citizens because they don't care about gun laws as a criminal. All you are doing is unconstitutionally infringing on human right for a law abiding citizen to defend oneself with a firearm and for that you should be ashamed and vote no.
