SB243

I strongly oppose this measure. You are forcing people to wait 3 days for something osp approves. Why just do this for firearms? With Democrat logic this should be done for everything.

Not sure why age 21 is the magical age of ownership. You can send them to war before that to protect our rights that you want to take away.

As a person that has lived in this state almost all my life I dont understand what is going on with our state. It seems like a race to the bottom on who can be the most extreme.

In closing, dont we have enough firearm laws?

Thank you
