SB210

I 100% support in-person voting with ID required. As has been profusely proven already, our election process of mail-in voting in our state has no integrity. It's controlled by a select few democrats who ensure that only democrats are selected for key positions to keep this state blue. Moreover, voter rolls are rife with phantom and/or deceased voters, illegal immigrants, paving the way for an utterly skewed outcome which also provides no transparency and there is no bipartisan oversight. It has long been established that vote by mail is the method of choice when you want to rig the outcome, and rigging I believe has taken place to keep this state in the hands of progressive liberals who do not represent the vast majority of the people who live here. It is altogether unacceptable, and violates a citizens basic right to participate in election process in good faith, and to expect that the outcome is accurately counted and reported. No longer will we sit idly by while our beautiful state is destroyed by allowing this kind of entrenched hegemony to continue. And the same goes for RCV. RCV is designed to skew outcomes which in itself is facilitated by massive uncontrolled, unverified, fraudulent votes which in the hands of the establishment power brokers will turn in whatever direction they desire! The people know, and as well, the individuals in charge of overseeing our elections should definitely know... that what I'm saying is true. The only people who would oppose measures that legitimizes the vote, are themselves benefiting from the fraud. You know it, and I know it. It is time move away from the corrupt systems that have run roughshod over the citizens of this state. One day voting, in person, voter ID & proof of citizenship required. Do the right thing!!
