

Submitter: Peter Rosenberg

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

SB 243 contains vague language, over reaching concepts, and is a measure which will do nothing to keep illegal weapons out of the hands of criminals. What sb243 will do is make life complex, frustrating, and legally precarious for law abiding citizens who own and carry firearms. It will prevent access to firearms for youth interested in competitive shooting sports and even those who serve our country in the military. It will create legal gray areas which threaten to create felons out of well meaning citizens who choose to exercise their rights. SB243 won't prevent gun crime, does nothing to address the root cause of gun related deaths in our state and country, and serves only to frustrate those of us who lawfully use firearms for recreation and protection. Please reconsider this devastating misstep.
