Dear Madams/Sirs -

Let it be known that I oppose this bill for numerous reasons. I believe it is an unjust assault on our Constitutional 2nd amendment rights, and although it may seek to solve real problems, is misguided and wrongly framed to meet those goals. Instead, it ignores the underlying issues of mental health and unpunished criminality while unfairly punishing law-abiding citizens and infringing on their God-given right to self-defense.

Please do not vote to pass this bill.

Kind regards,
