

Submitter: David McCall

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon's vote-by-mail system has greatly increased not only voter turnout, but voter education. Our system is safe, secure, and has been modified to improve over the years. The benefits far outweigh any perceived or actual defects, and it is an example that should be replicated throughout the nation.

Any representative professing to represent democratic values would oppose this bill, and support Oregon's vote-by-mail system.
