Measure, Appointment or Topic: SB210

All signs and actions CLEARLY point to how 47's administration's fast destruction of our federal government's infrastructure, especially of s.s. and the EO about restricting voting, is totally designed to PREVENT the voting populace [regardless of party affiliation] to ever have a voice again about our government's [state and federal] functioning. This is frighteningly dystopian and authoritarian. It is completely unconstitutional and must be stopped immediately.
