

Submitter: Helen Luce

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I am elderly and disabled with mobility difficulties. Returning to in-person voting would present significant physical challenges to me. I can't stand in lines for more than 10 minutes without becoming completely bent over with shaky knees. I have fallen from having to stand in lines too long.

I have voted by mail for over 10 years in both Washington state and here in my home state of Oregon. I have been impressed by the security-consciousness of how the Secretaries of State in both states have conducted the vote-by-mail process. Please do not let this bill out of committee. If it passes I and many other elderly, disabled, and rural voters will become disenfranchised. This is not the American way. Thank you.
