

Submitter: Katie Smith

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This measure would inhibit people from being able to vote. People who work in Healthcare, direct support professionals, people who work long shifts that shut them out of the voting hours windows. It inhibits people from being able to vote who cannot get to polling places due to transportation needs, distance, mobility issues, etc. This is a step in the wrong direction.

As a married woman who took my husband's name, I'm already having to consider applying to change my name back to my maiden name to avoid being shut out of voting. This slide into Christian nationalism is heartbreaking and terrifying.
