

Submitter: Tammi Hanson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I work in healthcare, and getting time off to vote would be very difficult. Not everyone has the luxury of taking time off to do things even as important as voting. Voting by mail gives constituents time to review their ballot and make informed decisions without having to make sacrifices. It's ridiculous that this bill is even being proposed and in my view has very, very bad intentions. Restricting voting is UNdemocratic- I question the intentions of someone trying to hinder the ability to vote.
