On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I am very concerned about this proposed legislation to remove voting by mail. This system has worked successfully for many years. It places undue hardship on those with disabilities or those who struggle with transportation issues. Moreover, I find that this proposal is discriminatory against the people who can least afford to have it taken away. It is a literally a scheme to take away our rights and is forcing us (the public) to accept an inefficient way of voting. If it ain't broken, why fix it? Instead of dismantling what works, let's focus on enhancing the systems so that every eligible citizen has the opportunity to make their voice heard in a safe and efficient manner. But wait, what about the people in power who are trying to dismantle our postal system, that has made voting by mail work for so long? I smell a rat, both on the Federal and local levels. It appears that certain forces are trying to sabotage us all. Don't allow this bill to go forward.
