Measure, Appointment or Topic: SB210

Hello,

I oppose this bill. The system in Oregon has increased voter participation and ensures you can cast your vote regardless of your situation. We have very little fraud and it simply works. The conspiracies around fraud from this are not founded and will disadvantage people who work, are disabled or cannot get out for any number of reasons. Vote by mail is effective, safe, inclusive and low cost to implement.

Sincerely,  
Natalie.
