

Submitter: Joshua Feller

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This bill is clearly sponsored by those who delight in the destruction of our representative democracy. Access to voting is a right all Americans possess, vote by mail allows for access to all lawful registered voters, especially those who may not be able to physically make it to polls.

Please, please do not even consider supporting this idiotic conspiracy driven drive.

There has been little to no evidence of voter fraud on any level, let alone a widespread epidemic. Please pay recognition to the safety and security of our protected Oregon system, a program that has been successful and unquestioned for over 30 years.
