On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

After decades of successful mail in ballot elections in the state of Oregon the legislature is now considering stepping back in time with in person balloting. I have to ask why? Voter turn out in Oregon is excellent, why suddenly decide to make us all get in our cars to make it to a polling place, when I can sit down in my own home and have time to consider each measure... Some time for days, when I vote.

Timely

Trust worthy

Oregon mail in balloring should be an excellent example to the rest of the nation on how to ballot.

Please don't take away vote by mail in Oregon.

Deborah Calista Cates-Stanturf
