On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Senate Committee:

I oppose a requirement for in-person voting in Oregon. I moved to Oregon from a state that required in-person voting. It was very challenging to get to the poll while working and taking care of my children. As a working mom, this in-person requirement discriminated against my participation and created difficult hurdles to enact my constitutional right to vote. Oregon needs to stay a state that provides mail-in voting for everyone so that we can all exercise our right to vote.

Thank you,
