I am NEUTRAL on [HB 2808].

[HB 2808] gathers pertinent information concerning the well itself. This is needed to separate active versus abandoned wells. This is important to monitor the health status of aquifers.

[HB 2808] information gathered could be used to enable and facilitate the 'metering' of private wells.

[HB 2808] standardizes qualifications and educational requirements for well contractors. Good idea and should have been instituted years ago.

[HB 2808] mentions 'Fees' some are stated some are not. The lack of certainty breeds utter contempt for the intentional omission of transparency.
