

Submitter: William Long

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

To whom it may concern,

As a citizen invested in our democracy I urge you to oppose this measure. On its face it appears to be an attempt to curtail election fraud. That isn't the case. We already know that there is a very low incidence of abuse of our mail in system. In reality this is an attempt to restrict the time window and remove the convenience of mail in voting. There are Oregonians, myself included who require that time and convenience due to live obligations like work, childcare (or in the case of some I know) limited mobility, etc. Removing this capability from our fellow citizens would just limit who could vote, cutting off many of our citizens from their civic duty and fundamental right to representation. Please, vote no on this. Stand up to what's going on in Washington. Keep our state, and our country truly free.

Thank you,  
W. Long
