

Submitter: Dan Mulholland

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I think vote by mail, and the details of how it's been implemented, is really great. It costs less to administer; there is a complete paper record, rather than difficult to audit voting machines; voter identification is dealt with when registering, rather than at the polls. Don't mess with something that works so well.
