

Submitter: Jeremy Wilkins

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I am here today to express my strong support for this bill, which seeks to enhance the integrity of our electoral process through in-person voting and mandatory voter ID verification.

I firmly believe that requiring voters to cast their ballots in person and present a valid form of identification is a critical step toward ensuring that every vote is legitimate. In recent years, concerns over potential vulnerabilities in our voting system have grown, even the smallest amount of fraud can undermine public confidence in our voting process.

The implementation of these measures will require investment—in additional staffing, updated equipment, and other resources. However, I am convinced that the costs are a small price to pay compared to the benefit of preserving the sanctity and security of our elections. When citizens are assured that their vote is both secure and accurately counted, it strengthens our security and fosters trust in our government.

I also believe that the vast majority of voters understand the importance of secure elections and would support measures that protect our voting system, even if it means a modest increase in costs. The commitment to maintaining a transparent and fraud-resistant process is a commitment to every voter who participates in the election process.

For these reasons, I strongly urge you to support this bill. Let us work together to ensure that our elections remain fair, secure, and a true reflection of the will of the people.

Thank you.
