Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Dear Senate Committee on Rules,

Mail-in voting has been shown to be safe and secure, and it provides greater access to all eligible voters including those who can not drive, those whose work schedules and family schedules make voting difficult. Any attempt to reduce access to voting is anti-democratic and demonstrates a focus on conspiracy theories and/or a desire to block eligible voters from the opportunity to vote. Vote no on this horrendous and anti-democratic step backwards. Thank you
