

Submitter: Jo Alexander

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This is exactly the moment to protect our vote-by-mail system, not to support the administration's attempts to make it harder to vote. How many times over the years we have seen photos and heard stories about the struggles that voters in some states have to go through to cast their ballot. Oregon's vote by mail is a model, not a problem. I very strongly urge that this bill be rejected.
