On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I will be completing my first year in Oregon, moving here from Boise Idaho. This smacks of something Idaho legislators would come up with! Not a problem situation that you just want to mess with the general public! Why don't you just deal real issues! Homelessness, education, health care, etc.

The facts of Oregon's vote by mail speak for themselves! Leave the Trump dialogue on voting fraud to him and his followers. Lies and false claims of fraud are a terrible waste of legislative time! Keep our democracy intact and focus on real issues.
