Hello,

I am writing to oppose bill SB 210. Mail-in voting a wonderful, accessible, free method that offers people the opportunity to vote with deliberate intention. With mail in, voters who may have access concerns with in person voting can safely make their voice heard. Many benefit from this method, including low-mobility voters, parents who may not be able to stand in line, people working shifts that make taking time off work difficult— All benefit, and as such I urge you to oppose this bill.

Thank you!
