

Submitter: Emily Haar

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As someone who came from a non-mail in voting state, I strongly oppose this measure. I've seen firsthand how voter suppression in Georgia has taken away the ability of citizens to vote, and turned residents against each other and their state.

Having the option to thoughtfully consider each measure and candidate within each election has been game changing in my ability to be an informed voter. I'm a busy mom and community member who appreciates the ability to vote on my own time, while having the opportunity to truly dive into the issues, measures, and candidates provided before me.

Taking away mail-in voting would drastically reduce voter turnout in Oregon. From rural voters who would have to access their centers from afar, to seniors or those with mobility challenges, this measure would take away the ability for each Oregon citizen to rightfully vote.
