

Submitter: Gary Veatch

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

SB 210 is a giant step backwards. It is an attempt to restrict voting rights by making voting difficult or impossible for a large swath of citizens and handicapped persons like myself. It is a blatant power grab by the current administration. It is an ideological imposition masquerading under the false premise that the existing mail voting system needs to be fixed. I oppose this proposed bill.
