

Submitter: Victoria Fiske

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This bill is creating more obstacles to voting. Not only is this a logistics issue, and a budget and personnel issue, but it makes voting harder for disabled people and people that are caregivers to disabled people. This absolutely should not even be considered as a potential option. Mail in voting allows for better voter turnout. I have voted in several states and my identification is more securely monitored in mail in voting than any other places I have been to vote.
