

Submitter: John Ritchie

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Please restore voter integrity. Every since Oregon went to mail in voting we have had uncertainty in election results. Mail in voting lacks adequate checks to insure only eligible voters are allowed to be counted. It promotes vote harvesting from those who either don't care to vote or not mentally capable of voting. Voting should be purposeful to insure only those who care and are adequately informed, do the voting. Those who don't care or not informed have no business directing those who do. Their ballots are easy prey for those who are intent to harvest those and vote in their behalf which pollutes election integrity. This ultimately destroys democracy and puts power in the hands of those who wish to push their own agenda regardless of popular intent.
