If the bill's sponsor wants to drive and wait in lines that aren't necessary on election day, let them. The rest of us have no interest and enjoy our great system with high voter turnout.

One of the few legitimate voting practice concerns was by a conservative member, Tootie Smith, of the sponsor's own party sending out erroneous ballots and duplicate ballots, while head of Clackamas election office. Voters thankfully promoted her externally in the next election.

Only authoritarians that look to suppress the democratic process and voter participation support your garbage bill. Move to Moscow.
