

Submitter: Jason Daniels

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This measure strikes at the heart of what it is to be an Oregonian. We value unfettered access to the ballot. Whether you work on election day or are unable to leave the house, every citizen must be able to exercise their right to vote.

This is truly the third rail of Oregon politics. The ballot ensures the freedoms we enjoy. Any legislator that promotes an agenda to end mail voting will face the voter. Democrats will face opponents in their own primary. Republicans in safe districts will face strong opponents from the other party.

This bill should never have gotten a hearing and the committee chair that scheduled this hearing should be primaried.
