

Submitter: Kelly Roberts-Clark

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose the alteration of Oregon mail-in voting systems currently in place. It has allowed me to vote easily with children in tow, as well as easily before or after work. It has been proven to be safe, secure, and accessible. It reduces time spent away from work and eases scheduling and disruption at the workplace for voting activities.

My entire family will vote against any lawmakers who encourage the destruction of our systems in place that allow for accessible civic input in the future. In these pivotal moments in our state's and our country's history, we must continue to bring our constituents together and work together for a better America. Deconstructing systems in place that allow for accessible voting is unacceptable.
