It is imperative, if we are to have free and fair elections to have in-person same day voting with voter ID mandatory. This also elevates the importance of citizen participation, models positive behavior to our children (as future voters), and limits the problem of fraud, misdirected, and lost ballots that take place through the mail-in process. this also alleviates a tremendous burden on the Postal Service. It also promotes community, as citizens participate in the democratic process of choosing their leaders together. I've spent my pre-Oregonian years voting same-day in-person at the polls, with my children by my side AT EVERY ELECTION, explaining and demonstrating how and why we vote. Let's return to respecting the process enough to physically participate in it!!!
