

Submitter: Barry Rhodes

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This is a political stunt pure and simple. There is no proof that anyone has been able to commit voter fraud to a scale that would affect even a single election. I vote in every election specifically because my ballot comes to my house. Oregon is a model for the nation with this policy. Don't let this bill get out of committee. I strongly opposed this measure. It would move democracy backwards in this state.
