

Submitter: Elexis Moyer

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I do not support this bill. It will take away my voting rights as i have never voted in person at 26 years old and I don't know how to. I am a single mom who doesn't have the time or gas to take more time out of my week so that my Vote can count. Mail in voting allows me the opportunity to vote from the comfort and safety of my child and l's home. I know many elders who vote through mail, if not all of the elders and everybody I know votes through mail. Who will tell the elders who don't watch TV or keep up with the news that the voting system is changing? Please do not change the voting system we already have in place. We cannot bend to another state of president's will, Oregon is its own state with laws and measures implemented that compliment our national ammendments.
