Changing the voting system in the state of Oregon from being vote by mail to in person is an attack on the freedom of all peoples of this state who are legally allowed to have their voice heard through the democratic process. Our current voting sytem is currently the most successful way for the preservation of democracy. By insisting voting be done in person it restricts the access to voting from those who must work, those who do not have childcare, those who are disabled, and those who barring any other impediment may risk not being able to cast a vote due to long voter lines. This bill goes against the wishes of the Oregon people and must be cast down! Thank you for fighting for the rites of every voter.
