

Submitter: Morgan Van Aken

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose the repeal of vote-by-mail as the standard voting practice. In-person voting as the standard is anti-democratic and prejudiced against those with the lowest privileges afforded to them, such as those with disability, multiple jobs, and/or children to care for. In order to ensure equal voting opportunities, vote-by-mail should remain the standard.
