Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Please do not allow this bill, which promotes voter suppression, a clear Project 2025 goal inspired by Donald Trump, to even be brought to a vote to the legislature. Defeat it before it even goes to the legislature to vote. It is designed to suppress and dismiss voters who have been voting by mail since the inception of Vote by mail was implemented in Oregon. It is a very successful voting method. Don't let the Republicans who are determined to suppress the Vote of the People by introducing this bill. Thank you.
