On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

A top priority of any state is election integrity. Our current system has failed us as if evident in the DMV mistake that registered many people who were not registered voters. I can attest to a broken system. I bought my house 8 years ago from a person who moved to New Hampshire. I still get ballots addressed to him. I have spoken with many long time Portland residents who feel the voting system is rigged and corrupted. Less people will feel that way if we go back to the system of in person voting.
