

Submitter: Becky Maison

On Behalf Of: Self

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

In person voting limits access to voting to many citizens- those who lack transportation or childcare, those with disabilities, etc. Voting from home allows you to take time to research the issues in the comfort of your home and make a more educated decision. Oregon has a high percentage of voters using mail in ballots and this would drastically decrease with in person voting. Costs would increase for both constituents and the State. Please retain mail in ballots for all Oregonians.
