

Submitter: O Rise
On Behalf Of: My daughter
Committee: House Committee On Education
Measure, Appointment or Topic: HB2583

My daughter would probably not graduate this year if she had to stay in her in-person public high school. We chose a virtual public charter school because it best fits her learning needs, but it is unfairly excluded from crucial Student Success Act funding. HB 2583 fixes this by providing equal access to resources while ensuring funds stay in Oregon's community-run schools. It's time to support all students."
