

Submitter: Daniel Zinder

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Vote no on sb210 and keep mail in voting in Oregon. Converting to in person only voting will disenfranchise disabled, poor, and other voters. There is no evidence of claimed widespread fraud with mail in voting and the process has been fair and sound in Oregon for many years. As a retired military veteran, I voted mail in for most of my life. I realize this bill will not stop military mail in, but there is no reason, and no data, to support changing in state voting to in person only other than to disenfranchise a large group of voters who traditionally vote against republicans. Changing the process on the whim of the president makes no sense. Vote no on SB210.
