

Submitter: Harold Whiteley

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Years ago I was at the Lane County Elections office to change my address. The person in front of me registered and when I finished I saw him outside the office on his phone. He returned to office and registered again. I watched him do this 2 more times. So he registered as 4 Democrats in a few minutes. Same person at the desk helped him each time and the line was 1-2 people each time, so this had to be noticed and condoned.

I strongly support voter ID confirmation and no mail voting except in extraordinary circumstances.
