

Submitter: Dave Smith

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Back in the day of in-person voting I was never asked to supply I'd to vote. As long as my name was on registry they gave me a ballot and all I had to do was sign it. No different than today's requirements. If your afraid to hear all the voters you shouldn't be a legislator. Keep the system as it is and just verify the signatures and registration requirements which we already have done.
