

Submitter: Kimberly Jaudon

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Hello,

I highly oppose a change to our mail in voting system. This system is safe and secure and not connected to the internet. Paper ballots are the best way to validate votes.

I am a more informed voter when I can take my time to research every ballot measure and candidate from my kitchen table.

Please KEEP this system that's worked for many years, safe and securely.

Mrs. Kimberly Jaudon
