

Submitter: Tessa Freeland

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This measure will make it more difficult for Oregonians to vote and make our voices heard and should not be passed. The mail-in voting system makes it easier and equitable for all Oregonians rather than restricting the times and places we can vote. In-person voting as the standard method would mean that people would have to take time off work, potentially harming their livelihood to participate in something that is our right. This will only result in fewer people voting and make it riskier for people who do decide to go vote. The system we have now is well-tested, safe, and fair to all!
